2 Port Fiber Termination Box Wall Mounted Fiber Access Terminal Box For Indoor / Outdoor

Our Product Introduction

for more products please visit us on optical-fibercables.com

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: FIBERMANIA
- Certification: ISO, UL, CE, RoHS
- Model Number: FTB3-SC-2
- Minimum Order Quantity: 10 Pieces
- Price: Negotiable
- Packaging Details: PE Bag+Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union, L/C
- Supply Ability: 50000pieces/Year

Product Specification

- Model Number: 2 Core Fiber Optic Desk Termination Box
- Application: FTTH Network System
- Installation Type: Wall Mounted
- Material: ABS+PC
- Adapter Type: SC UPC
- Core: 2 Cores
- Waterproof Rate: IP65
- Dimension(mm): 130x85x25mm
- Highlight: 2 Port Fiber Termination Box Wall Mounted, Indoor Fiber Access Terminal Box, Outdoor Fiber Access Terminal Box

Product Description

Fiber Optic Termination Box 2 Ports SC Simplex Type Plastic Housing For Indoor/Outdoor Use

The Fiber Optic Termination Box serves as a termination point for feeder cables, connecting them to drop cables within FTTX communication network systems, particularly in the FTTH field and ODN solutions. This box is designed to distribute, protect, and manage fiber or cable connections. It is made from either ABS or ABS+PC, with the latter offering enhanced strength and durability. Termination boxes can be categorized into two types based on size: plastic termination boxes and desk boxes. Plastic termination boxes, which are larger and designed for outdoor environments, can accommodate PLC splitters, LGX splitters, and CWDM/DWDM configurations (ABS box type). This versatility allows plastic termination boxes to function not only as distribution points but also as optical division units. Typically, for fiber counts of fewer than 12 cores, mini-type splitters are used, while configurations with over 24 cores may utilize either box-type or mini-type splitters or CWDMs. The sizes of the 2, 4, and 6 core boxes are generally similar. In contrast, desk boxes are primarily intended for indoor use, providing convenience for residents moving into new homes by facilitating easy fiber access. The core configurations for desk boxes typically include 1, 2, or 4 cores, and the material used is ABS+PC, ensuring durability and reliability.

Application

1. FTTH access network
2. Telecommunication network
3. CATV network
4. Used in the end termination of residential buildings and villas
5. To fix and splice pigtails
6. Can be installed on the wall
7. Applicable for various optical connection styles
8. Local area network

Features

1. Strong frame with ABS + PC material;
2. Saving space with small size;
3. Easy to operate;
4. High quality and low prices.

Specifications

Work Temperature	-40 C ~+85 C
Relative Humidity	≤ 85% (+30 C)
Atmospheric Pressure	70Kpa~106Kpa
Insert Loss	≤ 0.2dB
UPC Return Loss	≥ 50dB
APC Return Loss	≥ 60dB
Pull out Life Insulation	≥ 1000 times
Box Size	116x86x23mm

FAQ

Q1: What is the warranty of FiberMania's fiber patch cord?

A: FiberMania warrants that all fiber patch cords supplied are free from defects in material and workmanship for a period of five (5) years from the date of supply. All fiber optic bulk cables are UL profiled and every single cable is 100% tested.

Q2: Is it possible to customize our brand information on your fiber cable?

A: Yes, we can print your brand name onto our cable jacket and 1KM total cable length is requested.

Q3: Can you do 3D interferometer test?

A: Yes, we do the 3D test per our customer's request, we can have the pass rate over 90% and even 100% if necessary.

Q4: What is your MOQ of your products?

A: We only have MOQ for some special customized cable order, we request 1km as the total length of the bulk cable, you may consider stock the bulk cable with us for your urgent order production.

Q5: Are free samples available from you?

A: Yes, we are always happy to offer the free samples for all of our customers' projects provided that the total cost is under 50 US dollars.

Q6: Do you accept OEM and ODM orders?

A: Absolutely yes, we have been doing OEM services since we start in this business, and for every single label, printing, bag and carton design, we always treat it seriously and do it nicely. Our engineers can help you with your current design and even can open the new tooling for your specific project.
