## Product Description

### 1U 19inch ST Adapter Panel 12 Ports Loaded With ST Simplex Multimode Adapter

The fiber optic adapter panel is designed for patching fiber cables to termination enclosures, such as wall mount cabinets or rack mount patch panels. Its user-friendly design allows for quick installation, snapping effortlessly into place, making it an excellent choice for streamlined network deployment, as well as for moves, adds, and changes. Primarily intended for rack and wall mount enclosures, this adapter panel also offers additional application possibilities. For example, multimedia modular panels enable customization for installations that require the integration of fiber optic and copper cables, while blank fiber adapter panels reserve space for future expansion.

#### FAQ

Q1: What is the warranty of FiberMania's fiber patch cord?

A: FiberMania warrants that all fiber patch cords supplied are free from defects in material and workmanship for a period of five (5) years from the date of supply. All fiber optic bulk cables are UL profiled and every single cable is 100% tested.

Q2: Is it possible to customize our brand information on your fiber cable?

A: Yes, we can print your brand name onto our cable jacket and 1KM total cable length is requested.

Q3: Can you do 3D interferometer test?

A: Yes, we do the 3D test per our customer's request, we can have the pass rate over 90% and even 100% if necessary.

Q4: What is your MOQ of your products?

A: We only have MOQ for some special customized cable order, we request 1km as the total length of the bulk cable, you may consider stock the bulk cable with us for your urgent order production.

Q5: Are free samples available from you?

A: Yes, we are always happy to offer the free samples for all of our customers' projects provided that the total cost is under 50 US dollars.

Q6: Do you accept OEM and ODM orders?

A: Absolutely yes, we have been doing OEM services since we start in this business, and for every single label, printing, bag and carton design, we always treat it seriously and do it nicely. Our engineers can help you with your current design and even can open the new tooling for your specific project.
