## Product Description

### Indoor LC APC to LC APC Fiber Optic Patch Cable Duplex Single Mode OS2 Armored LSZH 3.0mm White

The Single mode OS2 fiber optic cable is a high-performance optical fiber that typically adopts a loose tube design, allowing it to stretch without bending the internal fiber and avoiding damage under immense tension. In addition, the cable structure of this OS2 fiber optic cable is more sturdy and durable, it adopts an armored design to adapt to harsh outdoor environments. And this high-speed Single Mode 9/125μm duplex fiber optic patch cable is terminated with LC/APC connectors on both ends(LC/APC-LC/APC). LC connectors, also known as Lucent Connectors, Little Connectors, or Local Connectors, are snap-in connectors typically used for high-density connections and are compatible with plug-and-play devices. This 9/125 OS2 single mode fiber optic cable is ideal for 1G/10G/25G/40G/100G/400G Ethernet connections. It can transmit data up to 10km at 1310nm wavelength, or up to 40km at 1550nm wavelength.
