Product Description

SC APC to SC APC Pullable Fiber Optic Patch Cable Simplex Single Mode OS2 OFNR 3.0mm Yellow

This high-speed Single Mode 9/125µm simplex fiber optic patch cable is terminated with SC APC Pullable connectors on both ends (SC APC Pullable-SC APC Pullable). SC APC Pullable connectors are a type of fiber optic connector commonly used in fiber optic networks. They have a "pull-out" design that facilitates quick connection or disconnection of optical fibers when needed. This type of connector usually uses APC (Angle Physical Contact) technology, which can reduce the reflection loss during fiber optic connection and improve signal quality. This type of connector is widely used in telecommunications, data centers, and other applications that require high bandwidth.
