19 inch 1U CAT.5E FTP Patch Panel, 24 Ports, Dual IDC, Black Color

Basic Information

- Place of Origin:
- Shenzhen, China FIBERMANIA • Brand Name:
- CE, RoHS • Certification:
- PP-C5F24SDB Model Number:
- Minimum Order Quantity: 1 Piece
- Price: Negotiable
- Packaging Details:
- Payment Terms: T/T, Western Union, L/C

1PC/Box

1000 Pieces

• Supply Ability:

untrill effyle dittru

Product Specification

 Highlight: 	24 Ports CAT.5E FTP Patch Panel, Black Color CAT.5E FTP Patch Panel, 19 inch CAT.5E FTP Patch Panel
Approvals:	RoHS Compliant
• Type Of Patch Panel:	Flat
 Wiring Scheme: 	T568A/T568B
Color:	Black
• Housing:	1.5mm SPCC
Material:	SPCC + ABS Plastics
 Shielding Type: 	Shielded
• No. Of Rack Spaces:	1U
No. Of Ports:	24
Category:	CAT.5E

19 inch 1U CAT.5E FTP Patch Panel, 24 Ports, Dual IDC, Black Color

The FTP Copper Patch Panel is a type of network patch panel that uses copper cables with "Foil Twisted Pair" (FTP) shielding, meaning each pair of wires within the cable is wrapped in a foil shield to protect against electromagnetic interference (EMI) and improve signal quality; essentially, it's a copper patch panel designed to work with shielded twisted pair cables, commonly used for high-speed data transmission in networks like Gigabit Ethernet

CAT5E Patch Panels

Our CAT5E Patch Panels are specialized for your CAT5E network, coming loaded with keystone jacks already implanted within the panel. Whether your network requires 6-ports or 96-ports, we have an array of options to suffice your specifications and offer an abiding solution.

CAT6 Patch Panels

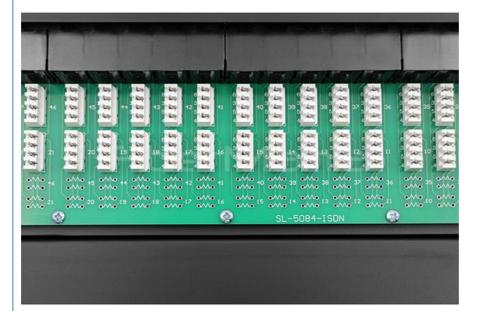

CAT6 Patch Panels provide an essential means of establishing a sound CAT6 ethernet network through sustaining multiple connections within a single structure. These panels come in shielded and unshielded variations, ranging in size from a half rack shelf unit (half-U) to four rack shelf units (4U). With our range of options, there is no need to compromise on the stipulations of your network.

CAT6A Patch Panels

The CAT6A Patch Panels allow your 10G network to prosper; with shielded structures to protect from electromagnetic interference (EMI), these Patch Panels are proven to be both cost-effective and efficient ways of maximizing network potential. As technology progress, know that your CAT6A system will remain sound for the years and years to come.

Features

- 1. 24 Port
- 2. Cat5e rated
- 3. POE Compatible
- 4. T568A/T568B wiring scheme
- 5. Rack mount 6. 110 terminations
- 7. Attached labels

Application

- 1. Gigabit Ethernet
- 2. LAN aggregation
- 3. Data center management
- 4. Equipment rooms
- 5. Wiring closets

Specifications

•	
Product	Cat3/Cat5e/Cat6/Cat6a Copper Patch Panel
Port Number	8, 12, 18, 24, 36, 48, 96port
Front Panel	Cold rolled steel
Plastic	High impact and flame retardant plastic, UL94V-0 rated
IDC Accept	22-26 AWG Solid Wire
Transmission Standards	ANSI/TIA-568.2-D ISO/IEC 11801 Class E
Wiring	T568A T568B
Insulation Resistance	Min.500 Mega Ohms
Contact Resistance	Max.20milli-Ohms
Dielectric Strength	750V AC RMS 60Hz 1min
Operating Temperature	-10 °C to +60 °C (+14 °F to +140 °F)
Storage Temperature	-40 °C to +70 °C (-40 °F to +158 °F)
Flammability Rating	UL 94 V-0

Q1: What is the warranty of FiberMania's fiber patch cord?

A: FiberMania warrants that all fiber patch cords supplied are free from defects in material and workmanship for a period of five (5) years from the date of supply. All fiber optic bulk cables are UL profiled and every single cable is 100% tested.

Q2: Is it possible to customize our brand information on your fiber cable?

A: Yes, we can print your brand name onto our cable jacket and 1KM total cable length is requested.

Q3: Can you do 3D interferometer test?

A: Yes, we do the 3D test per our customer's request, we can have the pass rate over 90% and even 100% if necessary.

Q4: What is your MOQ of your products?

A: We only have MOQ for some special customized cable order, we request 1km as the total length of the bulk cable, you may consider stock the bulk cable with us for your urgent order production.

Q5: Are free samples available from you?

A: Yes, we are always happy to offer the free samples for all of our customers' projects provided that the total cost is under 50 US dollars.

Q6: Do you accept OEM and ODM orders?

A: Absolutely yes, we have been doing OEM services since we start in this business, and for every single label, printing, bag and carton design, we always treat it seriously and do it nicely. Our engineers can help you with your current design and even can open the new tooling for your specific project.
