

## Impact Punch Down Tool, 5 Pairs Universal for 110 Type Patch Panel Network Module

Our Product Introduction

for more products please visit us on [optical-fibercables.com](http://optical-fibercables.com)

### Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: FIBERMANIA
- Certification: CE, RoHS
- Model Number: NT-1007
- Minimum Order Quantity: 1 Piece
- Price: Negotiable
- Packaging Details: 1PC/Blister Card
- Payment Terms: T/T, Western Union, L/C
- Supply Ability: 1000 Pieces

### Product Specification

- Types: Punch Down Tool
- Function: Cut, Clip, Punch Down, Impact
- Color: Black
- Material: Plastic+Carbon Steel
- Application In: Cable, Module, Patch Panel
- Length: 4.3"(108mm)
- Highlight: **110 Type Punch Down Tool,  
5 Pairs Punch Down Tool,  
Network Module Punch Down Tool**

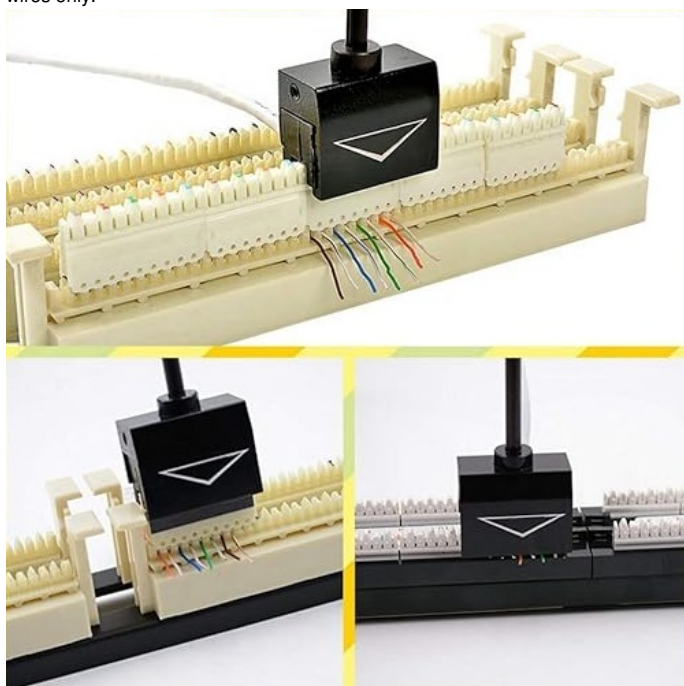

## Product Description

### Impact Punch Down Tool, 5 Pairs Universal for 110 Type Patch Panel Network Module

Impact Punch Down Tool is a tool used in the network cabling and telecommunications industries, primarily for inserting wires into insulation displacement connectors (IDCs), commonly used in equipment such as patch panels, modules, and surface mount boxes. This tool can handle 5 pairs of cables simultaneously, not only pressing the cables into the connection module, but also cutting off excess cables at the same time, greatly improving installation efficiency. It is suitable for various 110 type wiring modules and can be used for different brands and models of network modules. In product design, it is equipped with anti slip handles, and long-term operation will not feel tired. This tool is widely used in the network cabling and telecommunications industries, especially when installing or maintaining network patch panels, which can significantly improve work efficiency.

#### Features:

1. Non-slip handle, feels comfortable, perfect for long time operation jobs.
2. Made of high-quality steel, durable and nondeformable.
3. Universal for the operation of different blocks, modules and wiring racks.
4. Multi-function: cut, clip, punch down, impact with one tool.
5. Suitable for both 110 type cable side and cross-connect side terminals blocks.
6. The termination block heel with blades are changeable and reversible, one end is for seating and cutting off wires, the other end is for seating wires only.

#### FAQ:

Q1: What is the warranty of FiberMania's fiber patch cord?

A: FiberMania warrants that all fiber patch cords supplied are free from defects in material and workmanship for a period of five (5) years from the date of supply. All fiber optic bulk cables are UL profiled and every single cable is 100% tested.

Q2: Is it possible to customize our brand information on your fiber cable?

A: Yes, we can print your brand name onto our cable jacket and 1KM total cable length is requested.

Q3: Can you do 3D interferometer test?

A: Yes, we do the 3D test per our customer's request, we can have the pass rate over 90% and even 100% if necessary.

Q4: What is your MOQ of your products?

A: We only have MOQ for some special customized cable order, we request 1km as the total length of the bulk cable, you may consider stock the bulk cable with us for your urgent order production.

Q5: Are free samples available from you?

A: Yes, we are always happy to offer the free samples for all of our customers' projects provided that the total cost is under 50 US dollars.

Q6: Do you accept OEM and ODM orders?

A: Absolutely yes, we have been doing OEM services since we start in this business, and for every single label, printing, bag and carton design, we always treat it seriously and do it nicely. Our engineers can help you with your current design and even can open the new tooling for your specific project.
