Product Description

The **Duplex Round Base Station Optical Fiber Cable** is designed to provide **reliable, high-performance connectivity** for wireless base station deployments. Engineered with **excellent mechanical strength, flexibility, and flame-retardant properties**, this cable maintains stable signal transmission even in **harsh outdoor or industrial environments**. With **OEM/ODM customization options**, it can be tailored to meet **project-specific requirements**, making it an ideal choice for telecom operators, system integrators, and infrastructure providers.

Applications

Wireless base station cabling for 4G and 5G networks
FTTA (Fiber to the Antenna) interconnections
Backhaul and fronthaul fiber links
Industrial outdoor fiber deployments
Customized telecom infrastructure projects

Key Features

Reliable Performance – High-quality optical fiber ensures stable signal transmission.
